2019 Annual Report

the Molina foundation℠

A year of giving, growth, and gratitude...

Book Buddies

Through our flagship program, we gave **more than $4 million in new pleasure-reading story books and educational materials** to children and families to encourage a culture of reading and health at home.

On My Way to Kindergarten
En Camino al Kinder

Our new kindergarten readiness activity book **helped more than 30,200 families across the United States prepare their children for success in school and beyond.**

Community

We were thrilled to partner with more than **46 nonprofit organizations in 12 states** who work tirelessly to provide support, resources, and improve the lives of **more than 2.4 million children** and families in their communities.

Making it Count

Through a grant from The Larry & Helen Hoag Foundation, we embarked on a **multi-year program to identify and help families achieve critical math milestones.**

We at The Molina Foundation are proud to have been reducing disparities in access to education and health since 2004. We are equally proud that we are able to employ efficiency as we help families access critically-needed resources: 95 cents of every dollar spent in 2019 went to bringing new ideas, books and learning materials to children in need.
