

### Book Buddies

Through our flagship program, The Molina Foundation gave more than 2 million brand new pleasure-reading story books, magazines, activity books, and educational materials worth more than \$20 million to children and families to support a culture of reading and health at home.

Together with our distribution partners and with the support of our generous donors, we were pleased to continue our response to the education gap caused by the COVID-19 pandemic by suspending any costs associated with receiving a book grant.

### Community

We were thrilled to partner with nonprofit organizations in 13 states who work tirelessly to provide support, resources, and improve the lives of more than 3.5 million children and families in their communities.

### Efficiency

We at The Molina Foundation are proud to have been reducing disparities in access to education and health since 2004. We are equally proud that we are able to employ efficiency as we help families access critically-needed resources: 98 cents of every dollar spent in 2022 worked to bring new ideas, books and learning materials to families in need.

# THANK YOU!

Achieving our mission is made possible by support and encouragement from donors, volunteers, and advocates like you.
